1. IDENTIFICATION OF THE SUBSTANCE / PREPARATION:

Common Name                Hexaconazole 5% EC
Chemical Name               (RS)-2-(2,4-dichlorophenyl)-1-(1H-1,2,4-triazol-1-yl)
                             hexan-2-ol.
Intended Use                Fungicide
Pesticide Family            Hexaconazol(BSI, ANSI, draft E-ISO,
                             (M) draft F-ISO  Azale fungicide
Manufactured By             JAI SHREE RASAYAN UDYOG LTD.
                             M-4, Aradhana Bhawan, Commercial Complex,
                             Azadpur, Delhi-110 033
                             Telephone No. : 91-11- 45750100-40
                             Telefax : 91-11- 45750140
Empirical Formula           C_{14}H_{17}Cl_{2}N_{3}O

Structural formula:

\[
\begin{align*}
\text{CH}_3 & \text{CH}_2 \text{CH}_2 \text{CH}_2 \text{CH}_2 \text{C} & \text{Cl} \\
\text{CH}_2 & \text{CH}_2 & \text{O} & \text{Cl} \\
\text{N} & \text{N} & \text{N} & \text{N} \\
\text{N} & \text{N} & \text{N} & \text{N}
\end{align*}
\]

CAS NO.                : 79983-71-4
Molecular weight        : 314.22

2. PHYSICAL & CHEMICAL PROPERTIES

Physical state : Powder
Colour : Colorless to light yellow

Acidity (As H$_2$SO$_4$) : 1.0 % max.

Solubility
- In water 0.017 g/L at 20°C
- In dichloromethano 336 g/L at 20°C
- In Methaol 246 g/L at 20°C
- In Acetax 164 g/L
- In hexane 0.8 g/L
- In Toluene 59 g/L at 20°C

Stability : Stable for two years in normal conditions

Compatibility : Can compatible with many common pesticides;

Odour : Faint Odour

Acidity / Alkalinity or pH Valu : 5.2 to 7.291% sol.

Boiling point / range : N/A
Melting point / range : 110-112 °C
Flash poit : N/A
Flammability : Not flammable.
Oxidising properties : N/A
Vapour pressure : N/A
Bulk Density : 1.29

### 4. HAZARDS IDENTIFICATION

Toxicity Class : Non Hazardous as per NOHSC
Symptoms of poisoning : Irritant

Skin : Minimally toxic and not irritating.

Eyes : May cause eye irritation

Inhalation : Not a likely route of exposure when handling the concentrate. Care should be taken to avoid inhalation of excessive amount of material during field spraying. May be irritating to the respiratory system.

Ingestion : Amount swallowed incidental to normal handling procedures and use are not expected to cause injury.

Other information : Non Toxic in general

5. FIRST AID

Skin contact : Remove contaminated clothing, shoes and leather goods, gently wipe off excess chemical. Wash skin gently and thoroughly with water and non-abrasive soap.

Eyes Contact : Immediately flush the eyes with gently flowing, lukewarm water or saline solution for 20 minutes, occasionally lifting the upper and lower lids. Obtain medical attention if necessary.

Inhalation : Remove source of contamination or move victim to fresh air. Keep victim warm and at rest. Treat symptomatically and supportively. Obtain medical advice if necessary.

Ingestion : Wash mouth out with water. If vomiting occurs, give more water to drink to assist dilution.

Other information : Treat symptomatically and supportively as and when required.
Antidote: No specific antidote is known, Treat symptomatically.

6. FIRE AND EXPLOSION DATA

Flash point: Non-combustible.

Extinguishing media: Preferred extinguishing media are Carbon Dioxide, dry chemical, Foam, water Fog.

Unsuitable extinguishing

Special exposure hazards: Fire may involve dehydrated compounds, which may emit oxides of carbon, nitrogen and possibly hydrogen chloride.

7. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Avoid Contact with skin and eyes. Do not breathe in fumes.

Environmental Precautions: Do not allow entering drains or watercourses. When the product contaminates public waters, inform appropriate authorities immediately in accordance with local regulations.

Occupational spill: For small dry spills, sweep up with damp earth or sand or other suitable absorbents, such as sawdust, taking care not to raise a dust cloud. Place the material into a clean, dry container and cover for subsequent disposal. In situations where product comes in contact with water, contain contaminated water for later disposal. Do not flush spilled material into drains. For large spills contact the manufacturer. Contain liquid far ahead of spill. Contain spillage and contaminated water and soil for subsequent disposal. Do not flush spilled material into drains. Keep spectators away and upwind.

8. HANDLING AND STORAGE

Handling: Keep product in original tightly closed container. Remove sources of naked flame or sparks. Avoid contact with eyes,
prolonged contact with skin, and inhalation of dust and vapour. Use with adequate ventilation. Wash hands before eating, drinking, chewing gum, smoking, or using the toilet.

Remove clothing immediately if the product gets inside. Then wash skin thoroughly using a non-abrasive soap and put on clean clothing. Do not apply directly to areas where surface water is present, or to intertidal areas below the mean high water mark. Water used to clean equipment must be disposed of correctly to avoid contamination.

**Storage**

: Store bagged material only on pallets **no more than 3 metres high**. Provide access aisles for each 2 rows. Loose bags could not be stacked more than 2x2x2 meters. **Dense packaging of unvented stacks of bags or boxes may lead to product decomposition posing a fire hazard.** Decomposition produces a foul odor. Check for hot containers and immediately remove to open areas for disposal. Keep out of reach of unauthorised persons, children and animals. Store in its original labeled container in shaded, well-ventilated area, away from heat, sparks and other sources of ignition. Not to be stored next to foodstuffs and water supplies. Local regulations should be complied with.

**9. EXPOSURE CONTROLS/ PERSONAL PROTECTION.**

**Occupational exposure limits**

: No occupational limits are established.

**Engineering control measures**

: It is essential to provide adequate ventilation. The measures appropriate for a particular work site depend on how this material is used and on the extent of exposure. Ensure that control systems are properly designed and maintained. Only spark-resistant equipment should be used. Comply with occupational safety, environmental, fire and other applicable regulations.

**PERSONAL PROTECTIVE EQUIPMENT:**

**Respirator**

: An approved full-face respirator suitable for protection from dusts and mists of pesticides is required. Limitations of respirator use specified by the approving agency and the manufacturer must be observed. Comply with occupational safety, environmental, fire, and other applicable regulations.

**Clothing**

: Employee must wear appropriate protective (impervious) clothing, boots and equipment to prevent repeated or
prolonged skin contact with this substance. Do not wear leather clothing.

Gloves : Employee must wear appropriate chemical resistant Protective gloves to prevent contact with this substance.

Eye protection : The use of safety goggles is recommended. Emergency eye wash: Where there is any possibility that an employee’s eyes may be exposed to this substance, the employer should provide an eye wash fountain or appropriate alternative within the immediate work area for emergency use.

10. STABILITY AND REACTIVITY

Stability : Stable under normal, dry storage conditions. Slowly decomposed by heat and moisture

Conditions to avoid : No special precautions other than good housekeeping of chemicals.

Incompatibility : Incompatible with oxidation materials and acids. The Product is compatible with many other pesticides when used at normal rates. However, a compatibility test is required before using with other products. Do not physically mix concentrate directly with other herbicides or pesticide concentrates; always dilute first.

Hazardous decomposition : Thermal decomposition products may emit oxides of carbon and nitrogen. And possibly hydrogen chloride

11. TOXICOLOGICAL INFORMATION (a.i.)

LD$_{50}$ Acute Oral $>2200$ mg/kg in rats (males)
$>6100$ mg/kg in rats (female).

LD$_{50}$ Acute Dermal No data available

LC$_{50}$ Acute Inhalation $>4.9$ mg/L in rats (4 hour).
Skin Irritation Non or mild irritation to skin
Eye Irritation Moderate irritation.
Dermal sensitisation No data available.
Mutagenicity Results taken from animal studies suggest that the product is not mugenic.
12. ECOLOGICAL INFORMATION (a.i.)

Bees
- Non Toxic to bees
- LD<sub>50</sub> >100 ug/bee

Birds
- Non Toxic to Birds
- Acute Oral: LD<sub>50</sub> mallard duck >4000 mg/kg

The Aquatic Organisms

Fish Toxicity:
- LC<sub>50</sub> (96h) mirror carp 5.94 mg/l
- LC<sub>50</sub> (96h) in trout (Onchorhynchus mykiss) 5.94 mg/l
- LC<sub>50</sub> (96h) in sheepshead minnow 5.4 mg/l

Daphnia toxicity:
- LC<sub>50</sub> (48h) water flea (Daphnia magna) 2.9 mg/l

13. TRANSPORT INFORMATION

UN No. Not applicable
IMCO Class Not applicable
IMDG PG Not applicable
Packing Group Not applicable
Proper Shipping Name Not applicable
Environmental risk Not applicable

14. REGULATORY INFORMATION

Hazard Symbol Non- Hazardous as per NOHSC
Risk phrases Not Applicable
Safety Phrases Not specified

15. DISPOSAL PROCEDURES

Pesticide disposal
Contaminated absorbents, used containers, surplus product, etc., should be burnt at > 1000oC in an incinerator, preferably designed for pesticide disposal, or buried in an approved landfill. Comply with local legislation applying to waste disposal.

Container disposal
1. emptied containers retain product residues.
   Observe all labelled safeguards until container is cleaned, reconditioned, or destroyed. Combustible containers should be disposed of in pesticide incinerators or buried in an approved landfill.
2. Noncombustible containers must first be triple-rinsed with water.
3. Containers that are not to be reused and should be punctured and transported to a scrap metal facility for recycling or disposal.

16. OTHER INFORMATION
It is excellent fungicide composed of Haxaconazole 5% EC in Colloidal suspension form effectively used to control range of fungi in variety of crops.

The information contained in this safety data sheet is given in good faith. It is accurate to our best of knowledge and belief and represents the most up to date information. The information given in this data sheet does not constitute or replace the users own assessment of work place risk as required by other health and safety legislation.
